WEBINAR ON

ASHRAE Standard 211 & ASHRAE's Building EQ Be an Energy Genius

HIGHLIGHTS

ASHRAE Standard 211, the Standard for Commercial Building Energy Audits, establishes minimum performance levels for building energy audits.

ASHRAE's Building EQ, a web based portal that compares your building's performance with similar building types and walks you through the steps to complete a Level 1 Energy Audit.

Two separate evaluations, one for As Designed potential (asset rating) and the other for In Operation performance (operational rating), form the foundation of Building EQ.

Mr. John Constantinide

John Constantinide is a Florida-licensed mechanical engineer, with 11 years of experience providing mechanical engineering design, hazardous material consultation, and installation energy management. His work experience includes industrial, institutional, and commercial facility design and construction administration for government, aviation, and health care entities. Mr. Constantinide is also a Certified Energy Manager, Certified Fire Protection Specialist, and LEED AP with a BD+C specialization. In ASHRAE, he serves as Vice Chair of the Building EQ Committee and TC 5.2 Duct Design, Handbook Subcommittee Chair on TC 7.6 Building Energy Performance, and Governor and GAC Chair of the Space Coast Chapter.
